

Team Leader / Supervisor

Apprenticeship Level 3

A team leader or supervisor is a first line management role. Key responsibilities are likely to include supporting, managing and developing team members, managing projects, planning and monitoring workloads and resources, delivering operational plans, resolving problems, and building relationships both internally and externally. You need someone in this role who can provide direction, instructions and guidance to ensure the achievement of your objectives.

An apprenticeship programme is a smart, cost-effective way to train a new team leader or supervisor, or to upskill your existing staff who are already familiar with your way of working but would benefit for some leadership and management development. With the new apprenticeship standards, you can be confident that the training and assessment has been designed by employers to fit the nature of the role in practice.

Training, Tutoring and Assessment

The whole programme takes a minimum of 12 months to complete, at which point your learner can start their final assessment, by agreement with you and the College. The pace at which the learner progresses will be driven by you and the learner. We will work closely with you to plan and deliver appropriate support and training. Your learner will mainly learn on the job, but training and one-to-one tutoring are a key part of the new apprenticeship standards, not just assessment, with more time on tutoring as part of the off-the-job training.

We will carry out joint reviews with you at regular intervals in order to review progress. You can use your normal performance management processes to monitor the progress of the apprentice, provide feedback and guide development. Your learner will be expected to keep a portfolio to track their learning and development throughout the apprenticeship.

The Level 3 ILM Diploma in Management is the main qualification of the programme as it is a combined qualification where both Knowledge and Skills outcomes are core components. It also facilitates the development of a portfolio of evidence, which is a requirement of the final assessment.

End Point Assessment

In conjunction with the College, you will be asked to formally sign-off that the learner has met the minimum requirements for knowledge, skills and behaviours within the apprenticeship standard and confirm they are ready to move on to the final assessment, which will be measured as follows:

Knowledge Test – The knowledge requirements within the Standard will be tested using a structured series of multiple choice questions to ensure all aspects are given coverage.

Competency-Based Interview – The independent assessor will test both knowledge and application of learning.

Assessment of Portfolio – The evidence contained in the portfolio will comprise of complete and/or discrete pieces of work that cover the totality of the Team Leader/Supervisor Apprenticeship Standard.

Professional Discussion – This discussion is focused on Continuing Professional Development (CPD). The apprentice will provide evidence of any additional learning/CPD undertaken during the apprenticeship and reflect on the outcomes.

For more information on the assessment for Team Leader/Supervisor Apprenticeship please see the full assessment plan in the Apprenticeship Standard documentation. We will arrange the End Point Assessment.

Apprenticeship Entry Requirements

The entry requirement for this apprenticeship will be decided by you as the employer, but may typically be five GCSEs at Grade C or higher. Learners without Level 2 English and Maths will need to achieve this level prior to taking the final assessment. If English and Maths tuition is required, we will provide this.
