A Guide for School Leavers

OPEN DAYS

OPEN DAYS

Our Open Days mean you can come and see what we have to offer for yourself.

At October and November's events, you'll be able to find out more about what the college offers, tour our facilities and find out more about the options available.

Then later on in the year, you can visit a sector-specific Open Day where we'll help you plan your route into the career you want.

C City **O** Olive Grove **H** Hillsborough **P** Peaks

Whether you attend an Open Day on campus or virtually, you will have the opportunity to:

meet our Tutors and discuss what our study programmes involve

speak to our Careers Advice Team about how to achieve your dream job

enjoy interactive taster sessions and look at examples of work you'll be doing

find out more about student support and how to travel to our campuses

take a look around our amazing facilities and see where you can spend your spare time

get the chance to look at our sports teams, clubs, societies and enrichment offer

Please note:

How and when we deliver our Open Days in 2022 may change. Please continue to check

for the most up-to-date information or to book your place.

Welcome

Angela Foulkes
Chief Executive
and Principal,
The Sheffield College

Now is a great time to think about your future – what you're interested in, what you love learning and what you want to do as a career.

Some of you might not have all the answers to those questions yet – and that's okay! We will help you to identify and achieve your goals as well as the qualification and level that are best for you.

At The Sheffield College, we think about the bigger picture and how we can support you to progress. There's a big focus on careers not just courses.

We offer an exciting range of vocational and academic qualifications to enable you to go further in education, training and employment and your career.

We transform lives through learning by enabling our diverse student community to progress to the next level and achieve their potential no matter what their starting point.

College life is different to school. You can specialise in one subject or several depending on your qualification type and subject choices.

Our campuses have top industry facilities and are easily accessible by public transport. You'll have the opportunity to be involved in enrichment activities.

One of the things that sets us apart is our fantastic links with employers, which will help you get the skills and confidence to succeed. Across the curriculum, employers support us by sharing their knowledge and skills with students.

We've won a raft of awards recognising some of our trailblazing work with employers. At the BTEC Awards 2021, we secured bronze in the BTEC College of the Year category. We also won the Employer Engagement category of the Edufuturists Award 2021.

Our award-winning careers team, who won a NEON Award 2021 for widening access for students to higher education, will provide you with independent careers information, advice and guidance to help you with your next steps.

We are incredibly proud of our student and staff community. It's great to see so many of our students progressing to Apprenticeships, further training, employment and university.

Now, we are looking forward to welcoming you!

Join us

At The Sheffield College you have an unrivalled choice of study programmes and A Levels to choose from.

Alternatively, you may prefer to learn new skills on-the-job whilst earning a wage with an Apprenticeship. We offer exactly the right option to help you go further; not only in the first instance but also as you grow, develop and progress.

Our study programmes, A Levels and Apprenticeships focus on your personal and academic development, and your progression, to help you achieve your career goals.

We support you to do this by creating opportunities and experiences so that you gain the skills employers find the most valuable. By the time you leave us, we want you to feel confident when applying for university or employment, and make sure that you stand out in your career.

To give you every opportunity to succeed, all programmes will include masterclasses by professionals, visits to the workplace, industry placements, mentoring, careers advice, projects set by employers, and opportunities to exhibit work and make presentations.

With us, you'll be able to join sports teams, societies and clubs, enjoy days out and trips away, and take advantage of our fantastic fitness, beauty and catering facilities.

All of this comes from within a college that sits at the heart of a vibrant city alongside two of the UK's largest universities.

We look forward to welcoming you.

You can find our City Campus just a ten minute walk from the city centre, five minutes from the train station, and get to us easily by tram, bus and bicycle!

via public transport, please visit:

and click on the 'Journey Planner'.

For more information about travel,
see page 38 of our guide.

Student experience

Joining The Sheffield College is about far more than just studying for a qualification.

It's about your whole experience as we support your progression throughout your qualifications to your career goal.

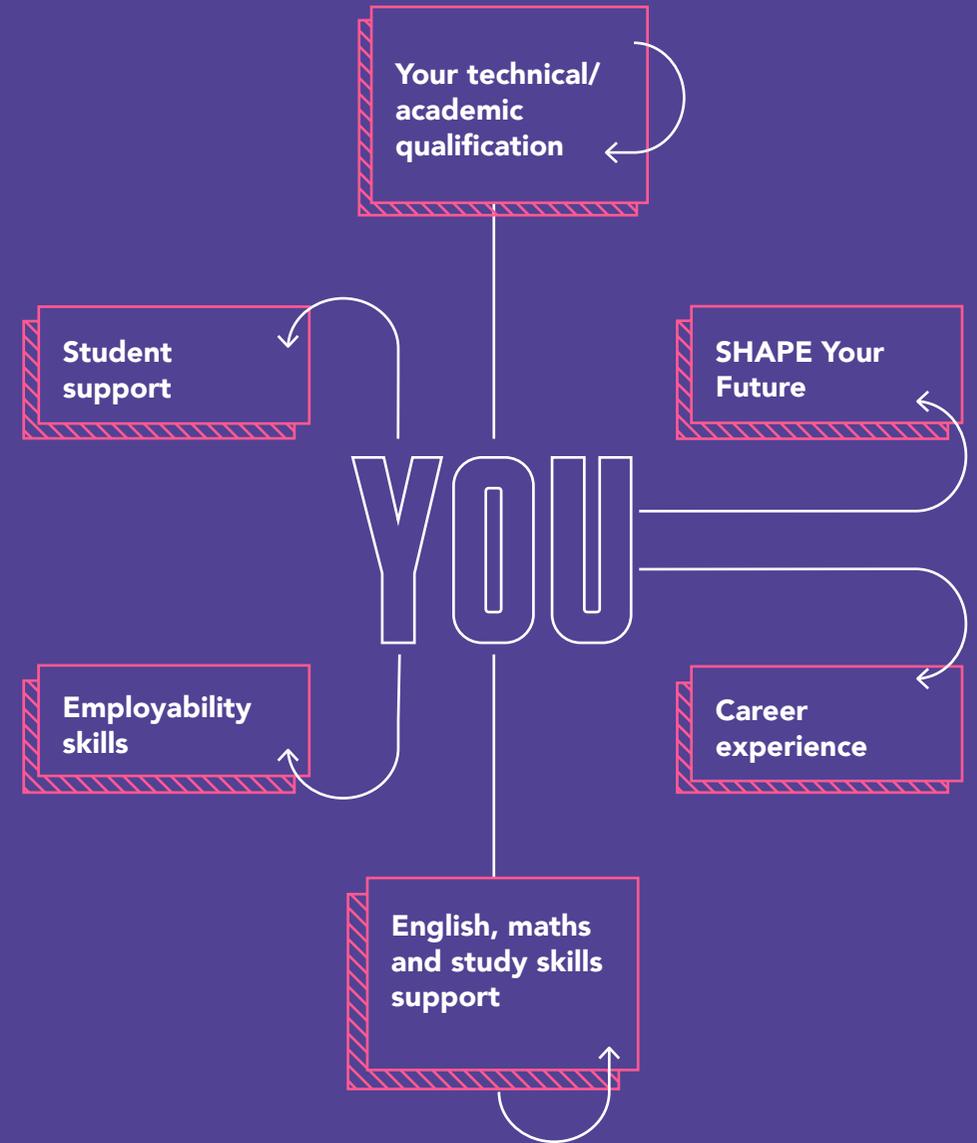

From the minute you walk through the door, the experience and the environment that we create is focused on maximising your potential. It's about preparing and motivating you for a fresh and focused career pathway.

We will help you to go further by equipping you with the skills, knowledge

and expertise to successfully apply for jobs, Apprenticeship vacancies and university level study.

Universities and employers will expect to see evidence of your employability skills, your personal development and career experience, English and maths qualifications, and study skills.

Your student experience at The Sheffield College will ensure that you are equipped with everything you need to be successful.

What's included?

English and maths

Apprenticeship applications, university applications and job applications; all of these will ask you to show that you have English and maths qualifications to a good standard before considering you.

Why are they so important? Well, it's because they are unavoidable. You'll need English and maths skills for everyday life, not just work.

We will help you to gain these qualifications if you need to improve them to the required level.

See page 12 for more details.

Your qualification

When you enrol to study with us, you are signing up for a technical (study programme) or academic (A Level) qualification, or an Apprenticeship. You can find the full list at the back of this guide.

You'll spend your time working with us to achieve this before progressing to the next qualification, university level study or employment.

Career experience

Gaining experience in relevant industries to your qualifications and interests is something that all employers expect to see on job applications, but it can be difficult to gain.

We help you to gain career experience by providing industry placements, tasters, workplace tours and coaching on self-employment.

See page 16 for more details.

SHAPE Your Future

Through tutorial sessions, all students have access to a new range of activities and learning opportunities designed to help you progress towards your career.

These will focus on the topics of:

- **S**taying safe
- **H**ealth and well-being
- **A**ctive citizenship
- **P**rogression and careers
- **E**quality matters

See page 20 for more information.

Student support

We want you to know that you can always ask us for help with anything to do with your qualification, progression and general well-being. Throughout your study, we will monitor, enhance and support your learning through tutorials.

During your tutorials, your Tutor will be able to talk to you about any concerns that you have, update you on progression and employment opportunities, and support you with applications you're making to go further in your career. You will also be able to access expert support from our Careers Team during your studies.

See page 32 for more details.

Employability skills

Employability skills are also known as key skills, which should give you an indication of how important they are. They are the personal skills that everyone requires if they want to be successful in employment, including:

- time-management
- problem solving
- communication
- working as a team
- initiative

During lessons, career fairs and by gaining career experience, we will develop your employability skills by explaining how you can demonstrate them in interviews and applications, and in your working life.

Our Careers Team can also support you with other tips and advice for interviews and completing applications.

Teaching

Insight, knowledge, passion and commitment. Real industry experts.

Our excellent teaching staff have worked, or are still working, in the industry that you are about to discover.

They are all about you. It's their job to support you on your career path from start to finish. They go further to help you go further.

Because they have worked in the industry you want to get into, our Tutors are able to share their knowledge and experiences with you, including what to expect when you qualify, what problems you might

experience and how to overcome them. It also means that they can introduce you to some great contacts in the industry and arrange unrivalled behind-the-scenes trips to the workplace with the best employers in the region.

This experience is invaluable to your progression and their passion for the industry gives you a fantastic advantage when it comes to applying for a job.

"Being a part of a student's development and seeing their transformation is incredibly rewarding."

Joseph Rose Health and social care Tutor

"I love passing on my knowledge, skills and passion to the next generation! It allows me to transform the lives of my students by teaching them the skills to make them successful in their future career."

Tierney Kitteridge Animal management Tutor

English and maths

To be successful in your career, many employers will require a minimum grade 4 in GCSE English Language and GCSE Maths.

These qualifications are essential for your future progression, whether that's moving onto a higher-level study programme, university, an Apprenticeship or into employment.

If you don't already have a grade 4 in these vital subjects, English and maths will form an essential part of your studies when you join us. At the beginning of the year, the GCSE grades you currently have will be used to enrol you onto the appropriate class.

Classes will focus on promoting English and maths skills to help them come naturally to you when studying, working or applying for new opportunities. If you are committed to going further, your English and maths skills are essential.

Tutors will work closely with you to make sure that you make progress.

Young adults seeking work are 50% more likely to succeed if they hold GCSEs

Lessons are engaging and your Tutors will pass on their enthusiasm and passions for their subjects, ensuring you have the chance to achieve your personal best through the negotiation of meaningful and stretching individual learning targets as well as offering:

Your success in English and maths is at the heart of everything we do at The Sheffield College, and crucial to everything you will do when you progress into work or further learning. We look forward to helping you achieve this and we hope that you will enjoy studying these subjects with us.

catch-up sessions run by English and maths specialists

masterclasses on key areas of the syllabus

access to Google Classrooms and other high-quality online resources

revision sessions during term-time and during the holidays

one-to-one support

personalised feedback

Getting you ready for work

We work closely with employers across Sheffield and the region to make sure that the skills and industry-specific knowledge you develop will help you shine throughout your career.

We create opportunities for you to:

- work on live projects
- take part in masterclasses
- visit employers at their place of work
- complete virtual reality placements
- undertake industry placements
- and much more

Just to give you an idea, our students have recently had the opportunity to work with the following companies:

- | | |
|--------------------------|-----------------------------------|
| ARM | Premier Inn |
| City Taxis | Sheffield Children's Hospital |
| Department for Education | NHS Foundation Trust |
| Drop Dead Clothing | Sheffield International Venues |
| Ecco Theatre Arts | Sheffield Sports Stadiums |
| Galliford Try | Sheffield United Football Club |
| Heeley City Farm | Sheffield Wednesday Football Club |
| JE James | SUMO Digital |
| MAG Orthotics Ltd | Universal Office Products |
| Mercure Hotel | Vets For Pets |
| Playmania | |

Gaining career experience

To help you gain the career experience that you need to go further, we support you to build and develop key employability skills, confidence and your CV to make sure you're ready for work.

You will work closely with our Work-related Activity Team to participate in one of our MoveAhead, GetAhead or StayAhead programmes. On these programmes, you'll get the opportunity to complete:

Industry placements

Industry placements give you an exciting opportunity to put your skills to the test, develop your technical skills and gain unrivalled experience. Your placement will be closely linked to a job role that matches your study programme and career aspirations.

Industry tasters

Industry tasters are an introduction to the workplace. They allow you to experience what it is like to do a certain job by working alongside, and being supervised by, staff who are already doing it. Tasters may be a project that you work on with an external employer or could include virtual experience of work on our VR Hub.

Enrichment activities

Doing the things that you enjoy outside of college will develop skills such as commitment, good citizenship, initiative, leadership and team spirit. We fit these activities into your timetable to allow you to continue your development.

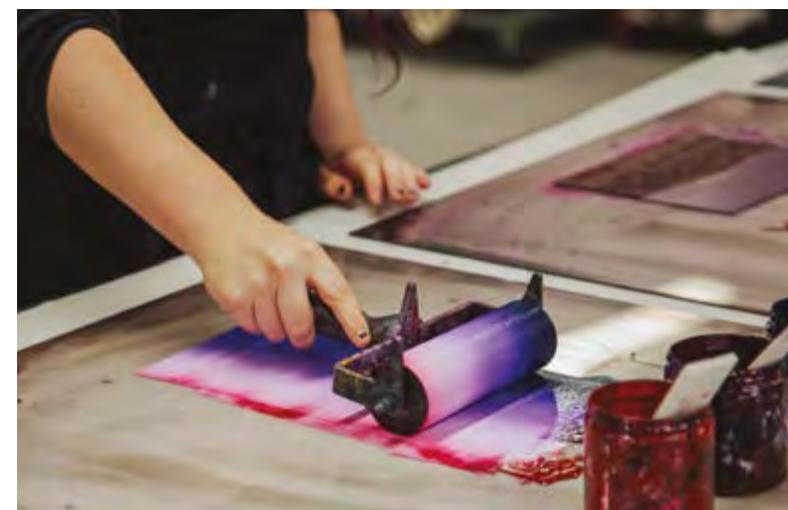

Preparing for self-employment

Fancy yourself as an entrepreneur or future business owner? Our Sheffield Chamber of Commerce Business and Enterprise Academy will teach you more about risk-taking, finances, planning, media and marketing.

"I really enjoyed the experience of working with a professional company for a live assignment. I was provided with a fantastic insight into professional design practice, which has dramatically enhanced my studies."

Jonah Jerrison-Carter Graphic design student

Employer Skills Academies

Our Employer Skills Academies will give you exclusive opportunities to work with some of the best local and regional employers.

Each academy has its own interactive classroom or spaces within the college that are branded by the employer sponsor – creating a professional business environment.

We currently work with:

- WANDisco
- Sheffield Chamber of Commerce
- City Taxis
- Elite Sport
- Millgate
- Sheffield Sharks
- Greene King
- MSK Ingredients
- Kryolan Professional Make-up
- Discovery STEM Education
- NextGen
- UNIHEADS
- KIER Construction
- Screen Yorkshire
- Work-Wise

By joining one of our academies, you will get exclusive opportunities with the employer partner to:

- explore all aspects of the business
- listen to specialist speakers
- go on workplace visits
- undertake industry placements
- work on special projects
- be part of masterclasses
- gain references for your CV

Look out for the employer names in the course section of our guide so you know which employers you might have the opportunity to join!

SHAPE Your Future

All students will access and attend a new range of activities and learning opportunities designed to help you progress towards your career.

These will focus on the topics of:

- Staying safe
- Health and well-being
- Active citizenship
- Progression and careers
- Equality matters

You will also be able to join our clubs and societies (see more on page 30), participate in campaigns and competitions, engage with numerous external organisations, become a Student Representative, and be involved with our Students' Union.

Your mental health and well-being

At The Sheffield College, we take mental health seriously. All students have access to a proactive online mental health & well-being platform called UNIHEADS.

By accessing the platform, you will develop your understanding, skills and coping mechanisms to help you to:

- understand mental health and key influences for students
- learn strategies to maintain good mental health
- build resilience and develop emotional fitness
- identify the warning signs of poor mental health
- look out for and support your friends
- identify and access support from college student services and our wider welfare partners

We've also teamed up with UNIHEADS to launch a Mental Health and Well-being Employer Skills Academy, which offers students experiences within the health technology industry and opportunities to contribute to regional and national projects.

The Students' Union and Safeguarding Team also host regular well-being cafes, providing drop in sessions for you to relax, try mindfulness activities and have a cuppa with a friendly face. We're always here if you need a chat.

"I'm so proud of our UNIHEADS Mental Health and Well-being Academy, which has increased an awareness among staff and students of the importance of student mental health and resilience."

Summer Akhtar Industry placement coach

Students' Union

Your Students' Union gives you the chance to influence and input on the shape of The Sheffield College, both now and in the future.

It provides you with a voice and a platform for change, a chance to express your views, and the opportunity to make a real impact on community, local, national and educational matters.

Led by a student-elected President and supported by fourteen other part-time voluntary executive officers, your SU hosts events and campaigns to raise awareness of issues which are important to you. These have included things like:

working to defeat the discrimination and stigma attached to mental health

discussing lowering the voting age to 16 with MPs

helping over 200 students register for the 2017 General Election

launching the #NOTON campaign to raise awareness of sexual harassment and violence, and where to get support

discussing GCSE English Language and GCSE Maths resits with the national media

working with the college's marketing team to promote key topics such as mental health, sustainability and going green

In July 2021, LGBTQ+ Officer, Niamh Brownhill, won Role Model of the Year in the Queer Student Awards for the work she's done to create a queer community in the north.

"I'm delighted to have been able to support LGBTQ+ students at The Sheffield College and empower them to create the spaces they want and need. We need to do more for our LGBTQ+ young people, our disabled young people and our young people of colour."

Yosh Kosminsky Former student

The Silver Plate Restaurant

Each week, our nationally-acclaimed restaurant opens its doors to the public for lunch and evening meals, gourmet nights and tasting menus.

Serving exquisite, varied and locally sourced food, our catering, hospitality and aviation students are the heartbeat of The Silver Plate and work under the supervision of our expert staff – some of whom are Master Chefs of Great Britain!

It's the students who are in the kitchens cooking exciting, high-quality and seasonal dishes, and who are providing exceptional silver service, managing front-of-house and running the bar.

Each service is an experience that helps our students prepare for successful careers in the industry, developing confidence, communication and working to customer expectations.

The Silver Plate Restaurant has links with a range of top industry chefs who are past students of The Sheffield College. They include Rupert Rowley, former Head Chef of Michelin starred restaurant Fischer's at Baslow, and Tom Lawson of AA Rosette restaurant, Rafters.

The Silver Plate Restaurant holds a prestigious AA College Rosette Highly Commended award, and our students working in the restaurant have also won numerous awards, including Young Restaurant Team of the Year, Young Master Chef of the Year and this year's Zest Quest Asia Challenge.

If you're interested in studying catering and hospitality, we feel confident in saying there's no better place to do it than The Silver Plate Restaurant and The Sheffield College.

Make sure you pop in and take a look when you visit one of our Open Days.

SAMPLE MENU

Starters

- Mixed game terrine, apple chutney
- Sautéed mushrooms on brioche with poached egg
- Soup of the day

Mains

- Pan-fried cod, curried mussels, Bombay potatoes
- Braised lamb shoulder, celeriac mash, red wine jus
- Maple-glazed tofu, bok choy & soba noodles
- served with seasonal vegetables

Desserts

- Vanilla panna cotta with Thomlinson's new season forced rhubarb & brandy snap
- Chocolate & clementine mousse
- Panettone bread & butter pudding with sauce anglaise

Revive Hair and Beauty Salon

Whether you're a budding hair stylist, beauty therapist, beautician or make-up artist, hair and beauty study programmes and Apprenticeships at The Sheffield College give you the opportunity to learn your trade in our hair and beauty salon, Revive.

Revive is a public salon and operates just as all other hair and beauty salons with paying customers do.

Hair and beauty students are an integral part of the team at Revive, with responsibilities to represent and promote the salon, keep the salon stocked, look after customers and perform treatments – exactly as you will when you enter the world of work.

Sport

Sport lies deep in the roots of Sheffield and its people. We take an enormous amount of pride in the city's rich sporting heritage.

At The Sheffield College you will have the chance to be part of our sports teams and continue the city's sporting legacy on our floodlit all weather pitches at Hillsborough, in our fully equipped fitness studios and inside our sports halls.

You don't need to be enrolled on a sport study programme to get involved, any of our students can join our teams which include:

- _____ Athletics
- _____ Badminton
- _____ Basketball
- _____ Cricket
- _____ Football
- _____ Futsal
- _____ Table Tennis

It's up to you how seriously you want to take it.

If you're a serious competitor, our teams give you the opportunity to represent the college and compete and develop your skills at a national level.

Our Elite Basketball Academy play in the invitation-only male and female Academy Basketball Leagues (ABL) as a result of their continued success. Joining The Sheffield College Basketball Academy and studying our Sport Basketball Elite Performance programme will give you the chance to train with professional coaches at the college and play in this top league.

You will also be coached to compete in the Association of Colleges, regional and national competitions.

If you'd rather just get involved for a bit of fun and to keep fit as part of your enrichment, we have activities for you too! You'll also have access to our fitness suites and sports halls which you can book for your own activities.

Our sports activators will also be hosting activities at different campuses throughout the year from tennis, indoor cricket and 5-a-side football.

If you love sport, this is the place to be.

Clubs, trips and societies

We go further to ensure that you get the best learning and cultural experiences possible to enhance your time with us. Previously, we've taken students to New York, Beijing, London, Berlin, Morocco, Iceland, Bruges, behind the scenes at East Midlands Airport, Whitby and even Florence in Italy.

There's a club and society for almost everything, from chess through to our media society – perfect for pursuing hobbies new and old, and meeting like-minded people who share your passions. Remember, if we don't have what you're looking for, we'll help you to set up your own!

Here's a list of a few below:

Arts club

Athletics

Badminton

Book club

Chess

Dance club

Enterprise

Fitness classes

Football

LGBTQ+

Media society

Netball

Students' Union

Table tennis

Tennis

Volleyball

Volunteering

Embrace it! Go on a number of trips, join clubs and try new activities that can enhance your time at college.

Student support

Support and safeguarding

We want your college experience to be as enjoyable and as safe as possible.

To make sure you can spend your time focusing on your studies, we offer the following support to all students:

[in-class support](#)

[childcare](#)

[mental health and well-being](#)

[support with exams](#)

[support with a learning or physical disability](#)

Please tell us if you have any support needs during the admissions process so we can ensure support is in place as soon as possible.

Our Safeguarding Team can also support you with any issues that you're having that make you feel at risk, either at college or at home. They work with lots of amazing agencies who can help you with:

[being/becoming homeless](#)

[domestic abuse](#)

[exploitation](#)

[online safety](#)

[mental health and well-being](#)

[sexual violence/harassment](#)

✕ For more information about support, please visit:

Admissions and student funding

To make sure you don't have to worry about money whilst you're studying, our Admissions and Student Funding Team can support you with advice and applications for our Student Support Funds. Funds can help you with the costs for:

[free college meals by adding money to your college account](#)

[course-related costs](#)

[course fees](#)

[travel passes for students and Apprentices aged 16-18 in South Yorkshire](#)

[childcare](#)

The team can also support you with:

[application queries and updates](#)

[funding for courses \(e.g. 19+ Advanced Learner Loan\)](#)

[progression advice](#)

✕ To find out more, please email admissions@sheffcol.ac.uk or visit:

Student Central

The Student Central Team will be available on campus and via email throughout your studies and can provide information, advice and guidance on the following things:

travel support and planning

printing college ID cards

student updates and payments for Student Support Fund applications, trips, exam fees and DBS checks

providing proof of student status letters

collecting your NUS card

Student Central

Visit them at our City and Hillsborough Campuses, or contact them on admissions@sheffcol.ac.uk

Careers advice

The decisions you make about your education are really important for your future career.

Our award-winning Careers Advice Team will support you with impartial information, advice and guidance so that you have all the information to make the right decision for you.

You can book personal careers guidance appointments at any time, or join small group workshops and themed drop-in clinics throughout the year.

They cover things like:

finding out about education, employment and training options

university and UCAS

developing employability skills

completing application forms and CVs

preparing for interviews

creating a positive online presence

finding jobs and volunteering opportunities

GO FURTHER WITH CAREERS

✕ Find out more by visiting:

Learning Resource Centre

Looking for a wide variety of digital and print resources to support you on your programme?

The Learning Resource Centres (LRC) at each of our four main campuses can help provide you with:

books

digital equipment

journals

online Discovery Service

study support

study skills workshops (notetaking, referencing, research and more)

You will be introduced to the LRC during your induction week and will find them a really helpful service throughout your time with us.

We recommend seeing them sooner rather than later!

Student discount

We work closely with the National Union of Students. This allows you to buy an NUS Totum card (powered by NUS Extra) for the year for only £14.99. This card offers fantastic discounts at hundreds of shops, restaurants and cinemas across the city and online.

Buy your card online or from the SU President!

NUS Totum Card includes discounts at places such as:

Co-op supermarkets

ASOS

Odeon cinema

Amazon

Apple

booking.com

Spotify

To find out more about our Learning Resource Centres, please visit:

Transport

We're really easy to get to!

All of our campuses are within walking distances of tram and bus stops, making us really easy to get to using public transport. Our City Campus is right by Sheffield's bus and train stations too!

Trams come every 5–10 minutes or so, and buses are frequent to all of our campuses if you don't fancy the walk. Each campus also contains secure cycle parking.

16-18 Travel Pass

Students and Apprentices at The Sheffield College who live in South Yorkshire are eligible for a 16–18 Travel Pass, entitling pass holders to cheaper travel on buses and trams in South Yorkshire. Pass holders are also entitled to half-price fares on Northern train services in South Yorkshire.

You can apply for a student pass at www.travelsouthyorkshire.com or purchase a value pass from us at reception, including a college-specific product for all ages.

The Sheffield College by tram stop

CITY **The Sheffield College/Granville Road**

HILLSBOROUGH **Hillsborough Interchange**

PEAKS **Moss Way**

✕ View our discounted travel fares at:

To plan your route, simply:

1

2 Enter your postcode and the postcode of the college campus you're going to

3

Select 'Arrive By' and enter a time before you are due to start college

4

Choose your route of travel – make sure you give yourself enough time to get to us

5

To get home, simply swap the postcodes in the journey planner and plan your route back

What can I study?

Working out what to do to help you get the career you want can be overwhelming and a little confusing. There are so many choices but it's also very exciting!

We've broken it down so you can have a clear look at the differences between them all and how they work.

All of our study options include:

fantastic study support

progression opportunities to further study, university and employment

career experience

You'll find the most detailed and up-to-date entry requirements for each study programme on our website:

Specific entry requirements are at the back of this guide. For some of our study programmes you may need to have specific subjects and grades at GCSE as part of our entry requirements.

If you haven't got a grade 4 or 5 and above in GCSE English Language and GCSE Maths, don't worry. The majority of our study programmes have the opportunity to gain these alongside them.

Please note all entry requirements are to be used as a guide only.

Top tip

Note the advantages of each type of study, the entry requirements, and work out which suits you and your ambitions best.

Don't worry if you're still unsure, we can help with careers advice to clear things up.

Study programmes

Key features:

Full-time study

Job-specific technical qualifications

Develop your skills in facilities that are the same as in the workplace

Career experience

| Level | Explanation | Typical entry requirements |
|--------------|--|---|
| ENTRY | If you currently have no formal qualifications this may be your best option. Entry Level study programmes offer a basic understanding of a subject area, help to enhance your career prospects, and improve your English and maths skills. | No formal qualifications but you will be invited for an interview/assessment. |
| 1 | Level 1 study programmes are practical and prepare you with skills for a specific career. You will gain a wealth of background knowledge in your chosen subject. There will be the chance to improve your English, maths and ICT skills. | 4 GCSEs at grade 2, including English Language. |
| 2 | Level 2 study programmes equip you with the skills you need for a specific career. You will start to specialise in the areas you find the most interesting, but lessons are still broad enough to give you a wide range of progression opportunities if you're not sure what you'd like to do in the future. | 4 GCSEs at grade 3, including English Language. Some study programmes with high practical content will require you to start at Level 1 as you will need to build skills in these areas. |
| 3 | Level 3 study programmes usually last one or two years, and offer more specialised, advanced learning which give you the skills and knowledge to progress directly into a job, a Higher Apprenticeship or university level course. | 5 GCSEs at grade 4 or above, plus a grade 4 or above in English Language. Some study programmes with high practical content will require you to start at Level 1 as you will need to build skills in these areas. |

Apprenticeships

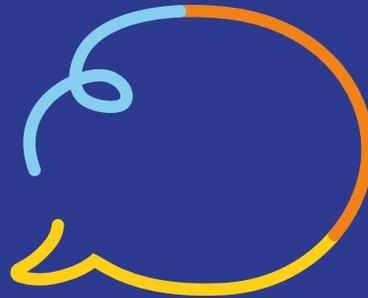

Key features:

Employed in a full-time job

Typically attend college one day a week to complete your qualification

Learn on the job

Earn a wage

Apprenticeships +

| Level | Typical entry requirements |
|-----------------------------|--|
| Intermediate Apprenticeship | 4 GCSEs of a minimum grade 3, including a minimum grade 3 in GCSE English Language and GCSE Maths* |
| Advanced Apprenticeship | 4 GCSEs of a minimum grade 4, including a minimum grade 4 in GCSE English Language and GCSE Maths* |

*Please note some employers will ask for grades higher than the above.

✕ To find out more, visit:

A Levels at The Sheffield Sixth Form

Key features:

Full-time study

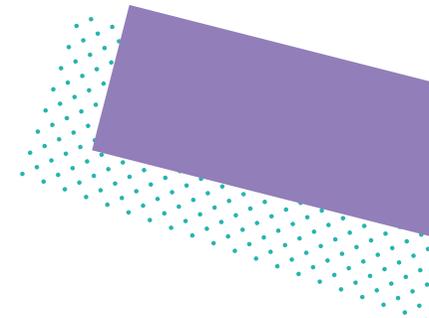

Study 3 or 4 subjects to tailor your learning to your career pathway

Exam and coursework assessments

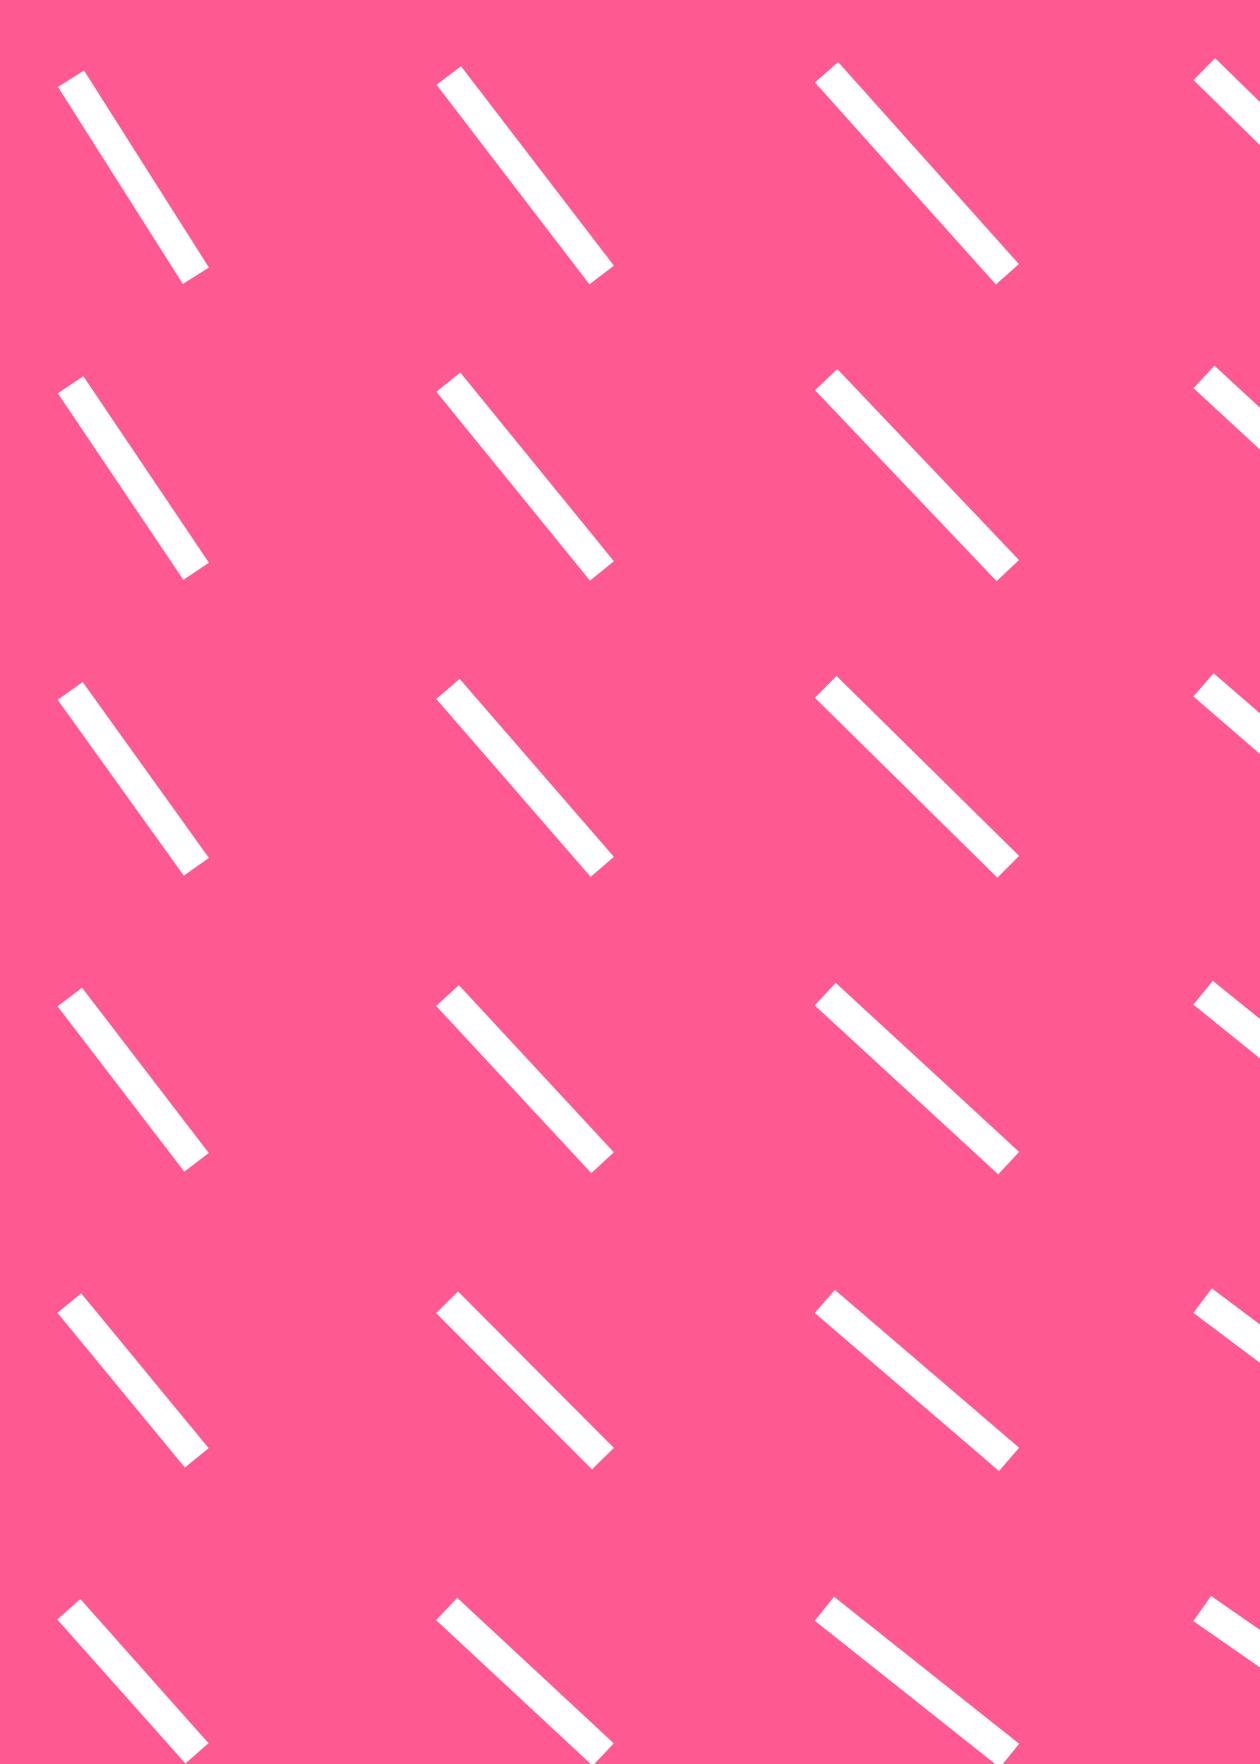

Exclusive facilities in the city centre

Certain A Levels will require a grade 6 or above in a specific subject.

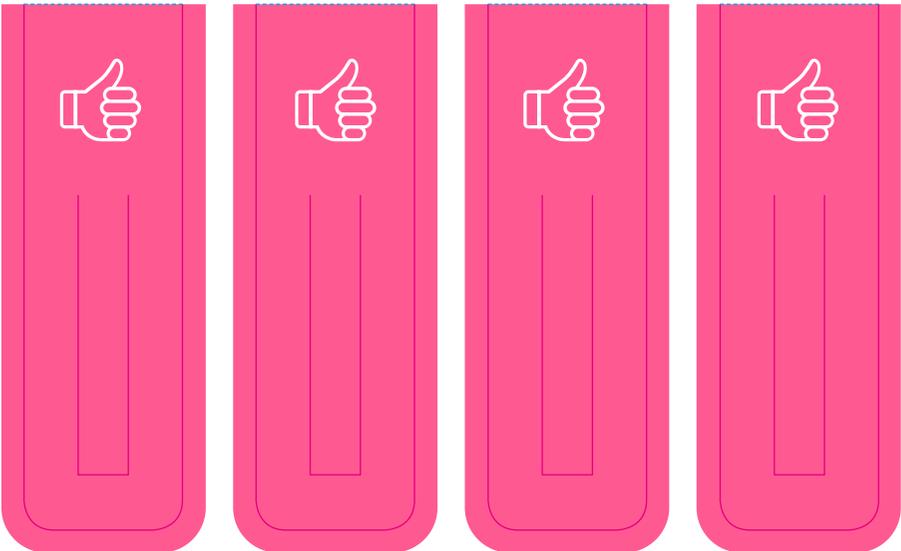

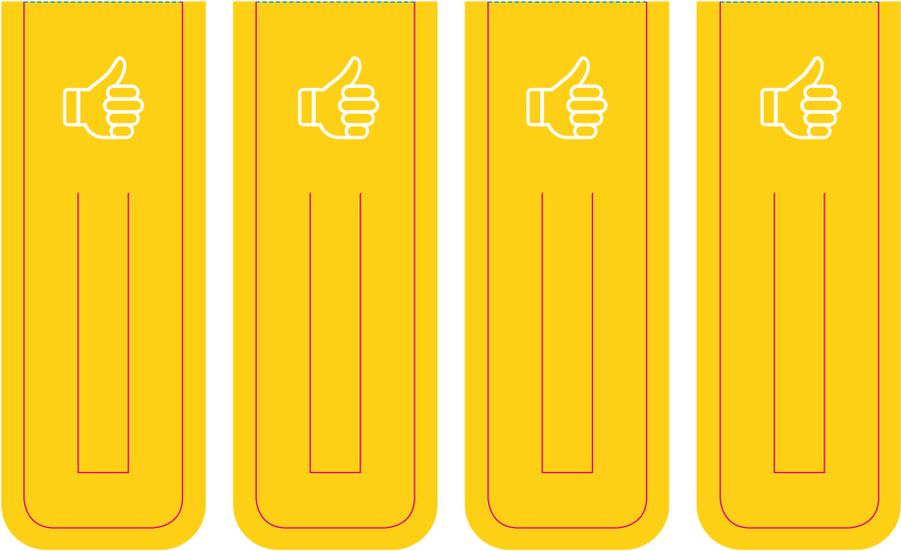

Please refer to our website for more detailed information:

| Level | Typical entry requirements |
|------------|--|
| 3 A Levels | 5 GCSEs at grade 4 or higher, including GCSE English Language and GCSE Maths |
| 4 A Levels | 6 GCSEs at grade 6 or higher, including GCSE English Language and GCSE Maths |

Use these bookmarks to flag the courses you're interested in!

CAREERS INDEX

We know that there are a lot of different jobs out there. The list of job roles and job titles is endless!

Over the next few pages, we have listed a sample of the careers each of our subject areas can progress to.

We hope that this will give you an idea of the career opportunities our qualifications can provide.

It will also be helpful if you know what career you want to do but don't know what to study to get there.

Please note that this is just a guide and these careers may need other supporting qualifications.

If you would like to find out more information about our qualifications and career opportunities, please visit:

Animal Care

If you're an animal lover and have an interest in learning about domestic, exotic and farm animals, one of our animal care study programmes is perfect for you.

A day in animal care is never boring! An average day could include anything from dog grooming and handling small animals to dealing with exotic snakes.

Our dog grooming salons and veterinary suites at our Hillsborough Campus, and the employers we work with, constantly provide opportunities for you to practise everything you've been learning in real-world scenarios.

“My Tutors were really supportive. I would never have thought to work as a veterinary care assistant if it wasn't for the nurses that taught me.”

Danny Exley Former animal management student

| Example careers | Annual average hourly wage (national) | | Key skills |
|-------------------------|---------------------------------------|--------|---|
| Vet | Starting wage | £16.00 | <ul style="list-style-type: none"> – Knowledge of animal medicine – Knowledge of biology – Patience and ability to remain calm |
| | Median wage | £21.00 | |
| | Experienced wage | £26.00 | |
| Veterinary nurse | Starting wage | £9.50 | <ul style="list-style-type: none"> – Animal handling – Teamwork – Customer service skills |
| | Median wage | £11.50 | |
| | Experienced wage | £13.50 | |
| Zoologist | Starting wage | £9.50 | <ul style="list-style-type: none"> – Knowledge of biology – Science – Thorough and attentive |
| | Median wage | £17.00 | |
| | Experienced wage | £25.00 | |

Automotive

The automotive industry is about much more than car maintenance and repair. With manufacturers such as Tesla leading the way in developing cutting-edge sustainable technology and electric vehicles, a career in automotive could be one of the most exciting around.

Our study programmes combine hands-on practical work in our industry-standard workshops, with the relevant theory and technical knowledge.

Studying at our Olive Grove Campus, you will learn your trade in state-of-the-art automotive facilities which resemble mechanical workshops and garages around the country.

“The staff and Tutors who taught me at college were brilliant. No question was left unanswered and I was given help if I required it, or asked for it. I learnt the basics of mechanics as well as enhancing my team working skills.”

Arron Fairweather Former motor vehicle maintenance & repair student

| Example careers | Annual average hourly wage (national) | | Key skills |
|------------------------------|---------------------------------------|--------|---|
| Motor mechanic | Starting wage | £9.50 | <ul style="list-style-type: none"> – Ability to repair and maintain machines and tools – Problem-solving – Attention to detail |

Aviation, Tourism & Events

Five reasons you should consider a career in aviation, tourism and events:

- 1. Life experience** – this is the industry to be in if you want to travel the world, experience new cultures and meet new people.
- 2. Amazing career opportunities** – some of the biggest companies in the world operate in this sector. You could be running hotels, hosting events or working as cabin crew!
- 3. Every day is different** – there are so many varied jobs in this sector and the nature of the industry means that you will be dealing with something completely new every day.
- 4. Skills for life** – you'll gain skills that employers from every industry will value; delivering outstanding customer service, time management and organisation. Your experience will be invaluable!
- 5. Training opportunities** – we provide you with access to some of the best opportunities around, visiting company HQs for special training sessions or at college with our life-size plane cabin.

"After leaving The Sheffield College, I got a job with British Airways. I love working with the public, discovering different cultures and, of course, travelling the world is the biggest perk of the job."

Jorja Rhodes Former air cabin crew student

| Example careers | Annual average hourly wage (national) | | Key skills |
|----------------------|---------------------------------------|--------|--|
| Travel agent | Starting wage | £9.50 | – Knowledge of global destinations – Customer service – IT |
| | Median wage | £11.50 | |
| | Experienced wage | £14.00 | |
| Cabin crew | Starting wage | £7.00 | – Customer service – Enjoy working with people – Knowledge of in-flight safety |
| | Median wage | £11.50 | |
| | Experienced wage | £15.50 | |

Business

Business is undoubtedly one of the largest and most important sectors in the world, and includes management, finance, law and marketing.

You will find that its wide variety of occupations cut across every single industry, giving you the opportunity to specialise your business skills for companies around the world.

As a business student at The Sheffield College, you will be able to join our Sheffield Chamber of Commerce Business and Enterprise Academy and learn more about risk-taking, finances, planning, media and marketing from some of Sheffield's most successful and well-known employers.

“I chose The Sheffield College because I found it is the best college in South Yorkshire. I achieved grades D*D* and I am just about to start my university degree at The Sheffield College.”
 Khaled Al Ameri Former business student

| Example careers | Annual average hourly wage (national) | | Key skills |
|------------------------------|---------------------------------------|--------|--|

Catering & Hospitality

Chefs, bakers and front-of-house staff perfecting their craft, getting creative with new ideas and creating amazing customer experiences is why we love this industry so much.

Training in the industry creates opportunities to work in pubs, restaurants, hotels, as independent street food vendors and to travel the world.

You'll learn classic techniques, be given the confidence to find your own style and develop an incredible understanding of the industry from staff, former students and employer partners.

Our students are also a crucial part of our AA Rosette Highly Commended and People 1st Gold rated restaurant, The Silver Plate, serving exquisite food and providing top-class service to the public as part of their studies.

"I have gained so much from my time at The Sheffield College – I am indebted to my Tutors for all the knowledge, time and expertise that they passed on to me. Their passion, drive, creativity and care are inspiring. I still use their recipes today because they are so good."

Daniel Ashmore Head Chef at Dean Banks at The Pompadour and former catering and hospitality student

Childcare & Education

Not many careers are more rewarding than helping to nurture and develop the next generation.

We prepare you for careers in nurseries and schools by providing you with the skills to inspire classrooms of children to fulfil their potentials, as well as create games and activities for toddlers in early years learning.

Our childcare and education programmes teach you about child development and working with parents, alongside developing transferable skills like communication and first aid that will come in handy in a wide variety of jobs.

“Attending The Sheffield College has made a real difference to my future as it has made my dream of working with children become a reality. I have gained valuable work experience from a placement in which I developed and extended my skills in childcare.”

Ayesha Nadeem Former childcare and education student

Civil Engineering

Look across the Sheffield skyline; things are changing rapidly. They're changing because of civil engineering.

Civil engineering is a varied profession vital to the design, construction and maintenance of all building projects such as roads, tunnels, bridges, dams, transport infrastructures and power stations. We could go on.

At The Sheffield College, we teach the latest sustainable civil engineering methods and Computer Aided Design (CAD) to make sure you leave us with the skills to break into this exciting industry.

| Example careers | Annual average hourly wage (national) | | Key skills |
|-------------------------------------|---------------------------------------|--------|---|
| Civil engineer | Starting wage | £15.50 | – Knowledge of engineering science and technology – Maths – Design |
| | Median wage | £26.00 | |
| | Experienced wage | £36.50 | |

Construction & Building Trades

The construction industry is in global demand and moving fast! Everywhere you look something is being built, being fixed. But as the demand for construction increases, so does the demand for skilled workers.

We teach the most sustainable construction methods in joinery, brickwork, painting and decorating, plumbing and electrical installation in our industry-standard facilities.

Our programmes also develop your business skills to give you the opportunity to become self-employed in the future!

“The Sheffield College has changed the direction of my life. Thanks to the Tutors, I am now a qualified joiner with a great job!”

Design & Visual Arts

Sheffield is full of creativity! Studying at The Sheffield College provides you with lots of opportunities for you to learn and exhibit work on your doorstep.

Because the sector is so diverse, we work with you to develop your own style in design, fine art, fashion and more!

You will have access to our many art workshops or Mac design suites, and our Tutors who also work in the industry will help you make some amazing connections.

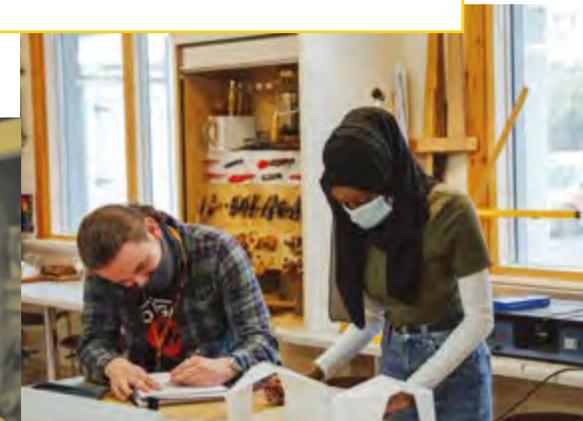

That could be at our Creative and Design Exhibition or one of the many showcases or live projects our Tutors arrange with some of the best employers in Sheffield.

“When I came to The Sheffield College I didn’t really know what to do with myself but my Tutor inspired me. Working independently on projects has really helped me to grow up and learn to manage my time, it’s given me some skills that I’ll never forget.”

Sasha Bushnell Former art & design student

Engineering

Engineering has forever been associated with Sheffield and its people, known for its cutting-edge technology and innovation.

Engineering is inventive, creative and ever influenced by new technologies like VR, robotics and nanotechnologies.

We continue the tradition of developing high-skilled, innovative engineers in our workshops for careers in the development of aerospace technologies, the latest in low carbon and renewable energies, as well as looking into the modern day manufacture of materials such as steel.

| Example careers | Annual average hourly wage (national) | | Key skills |
|---|---------------------------------------|--------|---|

Games Development

If you love to talk about games, enjoy designing them and most importantly play them for hours on end, there is no doubt that these are the study programmes for you.

Whether it's the characters, the stories, the gameplay or the graphics that you love the most, you will analyse the classics and look at the development of the new generation of games before planning and building your own.

As well as joining national game jams, our students also get the chance to visit huge game conventions and take part in masterclasses with the biggest names in the industry.

"My biggest achievement whilst at college was being nominated as a finalist for the Young Games Designer award that BAFTA run!"

Caleb O'Brien Junior Character Artist at Firesprite Games and former games design student

Health & Social Care

The health and social care sector makes up a huge proportion of the jobs market in the UK, with the NHS alone employing over 1.3 million people.

Regardless of whether you go into nursing, social work or something else, all of these careers have one thing in common – they're all incredibly rewarding.

The industry will always require caring, compassionate and knowledgeable professionals so you can be sure that you are learning hugely valuable skills from our expert team who have worked, or still work, in the industry.

“My Tutor was great, he was really invested in what we were doing. I have now moved onto a Higher Apprenticeship which will help me progress my career to become a band 4 biomedical support worker at St James's Hospital, Leeds.”

Aaron Gledhill Healthcare Apprentice

Inclusion

Our Inclusion offer is for students who have a variety of support needs, learning difficulties or disabilities, or are looking to re-engage with education.

We offer two different pathways for students. Both are designed to give independence, confidence and skills for social situations, everyday life and work.

1. Pathway to Career Discovery

Unsure about what the future might hold? This exciting pathway gives students the opportunity to discover new passions and career inspirations through a variety of interactive cross-college curriculum taster sessions, including animal care, catering, horticulture, sport and more. As well as spending time pursuing new interests, students will refresh their English, maths and IT skills to re-energise their appetite for success.

2. Foundation Learning Pathway

This is a pathway for you to develop your skills for life and the world of work. Within this pathway we have supported programmes that enable you to develop your independent living skills and your social, emotional and personal development. You will take part in practical options including cooking and art, and you will also have the opportunity to develop your English and maths skills. Some programmes on this pathway also have a supported placement attached to enable you to develop your skills and confidence in the workplace.

Our Inclusion programmes are further enhanced throughout the year with opportunities for students to participate in additional sporting events, overnight and week-long residential stays, educational visits, lunch-time activities and end-of-year celebration events. Our number one priority is ensuring our students learn in a safe environment. Our friendly staff are experts in providing support for young people with a wide range of specific needs. They provide students with the best possible learning environment so that they can achieve their goals.

“It changes your frame of mind and it helps you to go about things in a proper workplace. I wasn’t a very confident person, pretty quiet and shy, but it has opened me up a lot.”

Danny Bremner Former supported intern and current Grounds Maintenance Apprentice at Amey

Please note: each pathway has various entry points to meet individual needs.

IT & Computing

The IT and computing industry is one of the biggest and fastest-growing sectors around. With technology constantly developing, there are new opportunities in software development, app writing and artificial intelligence created every day.

Our Millgate and WANdisco Employer Skills Academies specialist computing labs and robotics suites give you the opportunity to master code, cyber security and software applications.

By the time you leave us, you will have the skills and confidence to break into the industry and lead the way for new technologies in the world!

“I have absolutely loved my study programme and I am over the moon about securing an Apprenticeship with Millgate. My career dream is to become a cyber security expert.”

Land-based Studies

Sheffield is The Outdoor City, one of Europe's greenest cities and the gateway to the Peak District. It's stunning, inspiring, and makes for unrivalled and unique work environments.

Studying one of our land-based study programmes in our automated glasshouses and workshops creates opportunities to maintain and design country gardens, landscape gardens or work as a grounds person.

Keeping our countryside, green spaces, homes and events looking beautiful is a rewarding and creative job!

“Doing an Apprenticeship jump starts your career which means you develop a strong work ethic. Since completing my Apprenticeship, I now have my own business where I employ another Apprentice.”

Alfie Hulbert Former Apprentice and owner of Valley Landscapes

Jobs in South Yorkshire by 2025:

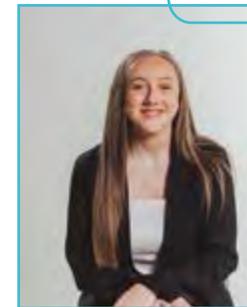

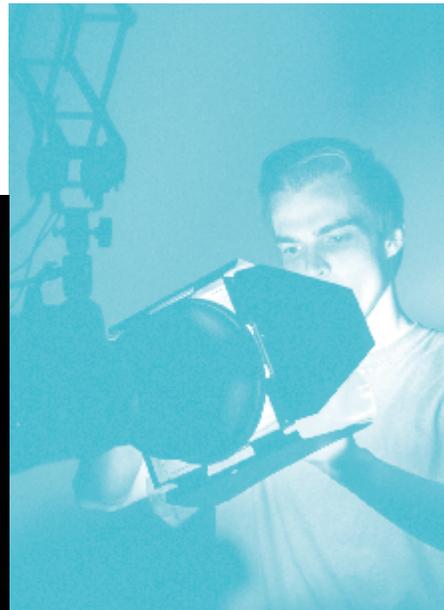

Media, Journalism & Photography

Getting the experience to start a career in media, journalism and photography can be challenging.

That's why we have invested millions of pounds in our photography studios, TV studio, edit suites and production facilities for TV, radio and film. These facilities give you the opportunities to train and showcase your work whenever you're on campus.

Recent opportunities have included filming and reporting on live Sheffield Sharks basketball matches, broadcasting the live wheelchair rugby group draw for the Tokyo Paralympic Games to a global audience, as well as industry placement projects on short films.

“The Sheffield College helped launch my career. It has led to me becoming a match day photographer at Sheffield Wednesday FC, whilst completing a BA (Hons) Degree in Photography.”

Harriet Massey Former photography student

| Example careers | Annual average hourly wage (national) | | Key skills |
|-----------------------------|---------------------------------------|-----------|---|
| Social media manager | Starting wage | £13.00 | <ul style="list-style-type: none"> – Creativity – Marketing – Adaptable and ability to work in fast-paced environments |

+ MANY MORE PEOPLE ARE SELF-EMPLOYED IN THIS INDUSTRY!

Performing Arts & Music

The biggest thing that all drama, musical theatre, acting and music students have in common is the desire to perform, rehearse and perform some more!

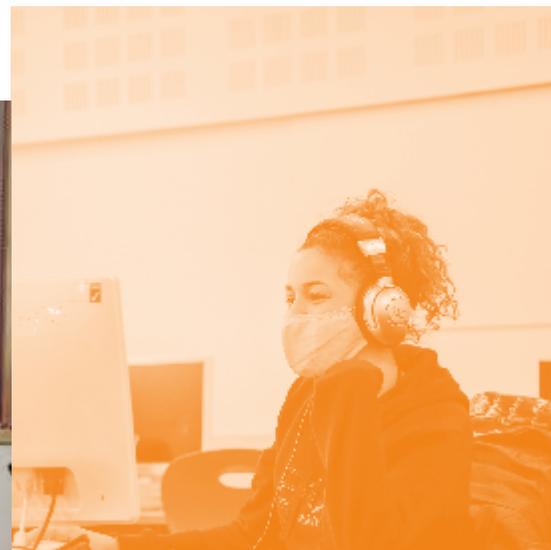

Our students are always performing in our fully equipped theatre or at venues across Sheffield, using our TV studio, recording studios and rehearsal spaces to bring their visions to life.

Equally, what goes on behind-the-scenes is crucial to a good performance. If you prefer to be backstage or behind the camera, we have lots of exciting opportunities for you. That might involve doing the sound and lighting for our performances, or producing props for our shows.

“I came to audition here, saw the facilities like the theatre and all of these studios, and thought wow, this is exactly what I was looking for.”

Ewan Fellows Former performing arts student

| Example careers | Annual average hourly wage (national) | | Key skills |

Protective Services

Saving lives as the first call of response, protecting others from any type of threat or danger, and generally keeping the country safe is as important as any job.

You could be working on the frontline for one of the country's emergency services, to serve and protect for:

- the police
- the prison and probation service
- fire service
- ambulance service
- Royal Navy, Royal Marines, Army and RAF
- UK Border Force

It's not for everyone but if it's for you, our protective services study programmes will make a whole range of careers available.

"If anyone has aspirations to join the police force like me, then I really recommend this programme."

Harry Loy Uniformed public services student

| Example careers | Annual average hourly wage (national) | | Key skills |

Science, Dental & Pharmacy

Science, dental and pharmacy are all underpinned by three main subjects (biology, chemistry and physics) but the career opportunities that evolve from studying them are huge and maybe quite surprising.

Whether you're looking to start a health-related career like nursing, radiography or occupational therapy, or a non-health related career like forensics, biomedical science or criminology, studying science is the perfect starting place.

It has great progression opportunities to go to university and study a whole range of subjects.

Going down a slightly different route, you could choose to study dental technology which is an aspect of dental science.

Dental technology is involved in designing, fabricating and repairing custom made dental appliances. These include dentures, crowns, bridges and dental braces.

"I want to say thank you so much to all my science Tutors. Not only did they provide me with the information to help me get a distinction but they also supported me so that I can get into university."

Lodmilla Khalil Former science student

| Example careers | Annual average hourly wage (national) | | Key skills |
|------------------------------|---------------------------------------|--------|--|
| Pharmacist | Starting wage | £16.50 | – Knowledge of pharmaceuticals – Maths – Chemistry |

Sport

The Sheffield College is an amazing place to study sport!

Whether you study sport science, coaching, fitness or our Elite Basketball Academy, you'll have the chance to represent the college competitively for one of our many teams in the national leagues and gain additional sporting qualifications along the way.

We also have great connections with all the major sporting clubs across the city, which provide unrivalled opportunities for career experience at places such as Sheffield United, Sheffield Wednesday and Sheffield Sharks.

“The skills that I learnt have set me up for life within sport coaching. It's allowed me to set my own business up and learn how to manage my staff.”

A Levels at The Sheffield Sixth Form

If an academic approach to learning suits you best and you fancy studying more than one subject at a time, A Levels are the perfect option for you.

A Levels at The Sheffield Sixth Form are varied and exciting, with subjects ranging from Fine Art and Film Studies to English Literature and Physics. You can study three or four A Levels at the same time, giving you the chance to enjoy a varied education and keep your options open for the future.

A perfect route into university, Higher and Degree Apprenticeships, or any career you fancy turning your hand to, you will study A Levels for two years at The Sheffield Sixth Form at our City Campus.

During your study you will also gain key skills such as research and report writing to help you succeed in the future, be it at university or in your job.

Before you choose your A Levels, it's important to have a think about what your end goal might be. If you've already got a university course or career in mind, you'll need to choose A Levels that relate to that.

If you don't know yet, don't worry. We'll be on hand to advise you on which subjects you need to take to get you to where you want to be. Just ask! We will also provide support during your studies to help you make the big decisions; Which university? Which course? Which career?

We'll organise trips to university open days and employer workplaces, as well as supporting you with UCAS applications, CV writing and interview preparation.

By the time you finish with us, you'll be ready for anything!

"Studying at The Sheffield Sixth Form has been a very positive and rewarding experience. I am really excited about the next chapter of my life."

Apprenticeships

Do you like the idea of developing your skills whilst working as an Apprentice? We've put together a list of Frequently Asked Questions about Apprenticeships to help you with the key features.

Do I get paid for doing an Apprenticeship?

Yes. An Apprenticeship is a full-time job which includes on-the-job training, so you get a qualification at the same time as earning a wage.

Do employers value an Apprenticeship on my CV as much as other qualifications?

A recent study found that UK employers cited work experience as their top priority when hiring new candidates. An Apprenticeship shows that you're qualified and already have experience of doing the job you're applying for – something that is invaluable.

What does an Apprenticeship involve?

Every Apprenticeship is different. Typically you'll be employed on a full-time basis spending roughly four days a week training and working with your employer, and one day a week in college. Applying for an Apprenticeship is like applying for a job as you will need a vacancy to apply for.

What subjects can I do an Apprenticeship in?

The list is endless. Here at The Sheffield College we currently offer Apprenticeships across 13 different sectors. These range from IT to catering, engineering and business. You can find our full offer at apprenticeships.sheffcol.ac.uk

How do I find an Apprenticeship?

You'll find all our Apprenticeships listed within the subject area sections of this guide. However, as an Apprenticeship is a real job, you'll need to apply for one of our vacancies.

We have an internal Apprenticeship Recruitment Team, who'll help you to find the role you want and help you to apply. Get in touch with them today at apprenticerecruitment@sheffcol.ac.uk

How to apply

To apply for a study programme or our A Levels, simply follow these steps:

1 Apply online

If you're currently in Year 11 and at school in Sheffield, Rotherham or Barnsley, please apply online through **Sheffield Progress**. Your school will support you through this process.

If you are applying from outside of Sheffield, you can apply directly through our website by clicking 'Apply Now' on the page of your chosen study programme or A Levels.

If you're unsure which study programme is right for you, please visit an Open Day to get an idea of what's on offer, or contact our Admissions Team on **0114 260 2600** who will be able to help you.

2 We'll let you know when we've received your application

Check online at **Sheffield Progress** or, if you have applied through our website, keep an eye on your emails for our confirmation.

3 Application processing

Our expert team will process your application. Please make sure your contact details are accurate as we may need to contact you to discuss your application further.

4 Come and meet us

We will invite you for an interview or audition. There's nothing to be nervous about, we just want to make sure the programme is right for you.

6 Keep in touch

If anything changes and you don't want to do the study programme you originally applied for, please let us know. Get in touch with our Admissions Team and we'll help you move forward or apply for something else.

8 Enrol

You'll be invited to attend a welcome event or enrolment session (we'll contact you with the exact date and time) either online or in person. You'll need to bring things like your exam certificates and ID with you. If you don't get the grades for the study programme you applied for, come to enrolment anyway and we can arrange an alternative study programme for you.

5 We'll make you an offer

We'll make you a conditional offer and remind you of the entry requirements. If you don't think you'll get the grades, don't worry. We will help you explore alternative options.

7 Give us a try

You'll be invited to attend an admissions event to meet your Tutors and some of your classmates.
