

# SUMMER PROJECT 2020

*Architecture is the triumph of human imagination over materials, methods, and men, to put man into possession of his own earth."*  
- Frank Lloyd Wright

**Welcome to the Extended Diploma in 3D Design.**

**COURSE LEADER- SARAH KRIEL**

As part of your initial assessment you are required to engage with a series of tasks to complete over the Summer holidays.

**Equipment-** pencils of different weight 2B/4B for shading and crosshatch  
H/2H for more perspective drawing  
Coloured Pencils

Black fine liner/ black biro

White coloured pencil to add highlights

Eraser

Ruler

Watercolour paints/ inks to create a wash  
Glue stick

**Task 1- observational drawing (primary research)**

You are to choose a building that catches your attention. It can be an urban structure in the city centre or a building in a rural setting. Sketch the building using a pencil or pen.

Take photographs of the building from different views and angles and capture any interesting

details, such as windows, doors, ornate decoration. ***\*Examples of sketching are shown on this worksheet.\****

# SUMMER PROJECT 2020

## Task 2- Design development

From the photographs you have taken create **4** more detailed sketches.

- 1-Use a different media to your original sketch
- 2-Apply colour within your next sketch
- 3- focus on an area of detail that you want to explore further in this sketch
- 4-Create a viewfinder and zoom in on a particular area of your drawing and recreate it as a pattern

## Task 3- observational drawing (secondary research)

Search on the internet for an image of some architecture that interests you. Create a sketch based on the image using a media of your choice.

*\*Contemporary architects include- Zaha Hadid, Frank Gehry, & Daniel Libeskind\**

## Task 4- critical analysis

Write a short annotation about the architecture image (min 500 words) include information such as- *When was it made? Who was the architect? What materials is it made from? What do you like/dislike about the structure? What does it remind you of?*

## Task 5- problem solving

This requires a little bit of imagination...

Think about your personality, the things you like or dislike. If you were a building... What would you look like? Create an architectural design that represents **YOU**. Consider colour/ texture/ pattern and form

## Task 6- extending working methods

Using a variety of media, including old books, magazines, newspaper, used food packaging to create a collage to represent a building or an architectural structure

*The images used on this page are from [www.pinterest.com](http://www.pinterest.com) and [www.dezeen.com](http://www.dezeen.com)  
They are both really useful websites to explore when starting a new project*
