

# Internship Pathway: Supported Internship

## Overview

The Internship Pathway: Supported Internship has been designed for individuals with an EHCP who need support to progress into employment after post-16 education.

This pathway is a structured, work-based study programme providing a substantial work placement, facilitated by a Job Coach and Work-Based Tutor, and is supported by a curriculum focused around employability. It will take 1 year to complete.

The intern will spend around 70% of their time in the workplace and will be supported to develop the skills valued by employers, demonstrate their skills in the workplace and develop their confidence for future job roles.

## What will be studied

- Conduct at work
- Job searching skills
- Understanding forms
- Developing independent travel skills
- Work rotations with different employers

## How will individuals be assessed?

Individuals will be continually assessed against their EHCP targets through a range of methods including task-based, observations and booklet work.

Individuals will also be assessed using a range of methods in a work related environment.

Progress will be reviewed termly through formal meetings with the host employer and the college.

## What can individuals do after?

Upon completion of this pathway, individuals can progress into sustained employment.

Alternatively, individuals may exit college and progress into employment and adulthood.
