

Welcome

Apprenticeships offer a fantastic opportunity for you to earn as you learn and get onto the career ladder.

They also provide a great way to achieve qualifications and develop industry skills.

If you're keen to develop your knowledge in the workplace more than in the classroom and to gain real life industry experience, then an Apprenticeship could be a great option for you.

As an Apprentice, you will earn as you learn, be paid a wage and study for a technical qualification through 'on the job' training with an employer.

Depending on the Apprenticeship programme that you choose, you will usually spend one day a week in college and the rest of the week in the workplace developing your skills, knowledge and industry contacts.

Apprenticeships are available in a wide range of sectors including accounting, business, construction, digital technology, education, engineering, information technology, law and the creative industries.

We are the largest provider of Apprenticeships in the city, and more than 1,000 employers back our programmes.

Successful completion of your Apprenticeship can lead to a permanent job or progression to the next level qualification, which could boost your earning power.

College commissioned research has found that, on average, students in the South Yorkshire Mayoral Combined Authority who achieve a Level 3 qualification will earn £6,888 a year more than someone with no formal qualifications, according to the EMSI Economic Impact Study 2019.

If you would prefer to learn in the workplace then it is definitely worth thinking about an Apprenticeship to help you go further in your career.

Angela Foulkes

Chief Executive and Principal,
The Sheffield College

What is an Apprenticeship?

An Apprenticeship is the best of both worlds! Not only will you be employed full-time and earning a wage, but you will also be working towards achieving a full set of qualifications and skills that will benefit you, your employer and your future career.
